PULSE ORIGIN

Before starting the installation

Please make sure you have the following items:
- One Pulse Box
- Three Wi-Fi antennas to screw
- The Power Plug
- A VESA mounting plate (option)

Register and activate your Pulse Box

In order to benefit from your warranty and all the evolving features of the Pulse Box, thank you to register your product from our support platform listed at the bottom of this page.

You can also flash the QR Code located under the Box to register it from our website.

Install your Pulse Box

Step 1 : Screw the three Wi-Fi antennas on the back of the Box *(pictures 1.1 and 1.2)*

Step 2 : Connect the Pulse Box to your screen or video projector via an HDMI cable (not supplied**)** *(Picture 2.1)*

Step 3 (depending on the chosen configuration) : Connect the Box to your corporate network via an Ethernet cable (not supplied) *(Picture 3.1)*

Step 4 : Power the Pulse Box by plugging it into a power socket via the adapter supplied *(Picture 4.1)*

The power LED should light up successively in red, green then blue before going out (Picture 4.2)

Configure your box

Technical documentation on the configuration is also available on our support platform indicated below**.**
